Form – IV

(See rule 13)

ANNUAL REPORT

[To be submitted to the prescribed authority on or before 30th June every year for the period from January to December of the preceding year, by the occupier of health care facility (HCF) or common bio-medical waste treatment facility (CBWTF)]

Sl. No.	Sl. No. Particulars		
1	Particulars of the Occupier	:	Mr.Ketan Pendse
	(i) Name of the authorised person (occupier or operator of facility)	:	Dr. V. Venkata Prasiddu
	(ii) Name of HCF or CBMWTF	:	Thyssenkrupp industries india pvt ltd
	(iii) Address for Correspondence	:	IDA Phase 2 Cherlapally
	(iv) Address of Facility	:	Thyssenkrupp Industries India Pvt,Ltd,.
	(v)Tel. No, Fax. No	:	9912277746
	(vi) E-mail ID	:	Venkata.prasiddu@thyssenkrupp.com
	(vii) URL of Website	:	
	(viii) GPS coordinates of HCF or CBMWTF	:	Longitude=78.64.Latitude = 17.46
	(ix) Ownership of HCF or CBMWTF	:	Private
	(x). Status of Authorisation under the Bio-Medical Waste (Management and Handling) Rules	:	Authorisation Order No.: 25/TSPCB/RO-MDC/CHPL/HCF/BMWA/2021-1785 Date: 17.05.2021
	(xi). Status of Consents under Water Act and Air Act	:	Valid up to:31.03.2028
2	Type of Health Care Facility	:	
	(i) Bedded Hospital	:	No. of Beds:Yes
	(ii) Non-bedded hospital (Clinic or Blood Bank or Clinical Laboratory or Research Institute or Veterinary Hospital or any other)	:	OHC ONE BED
	(iii) License number and its date of expiry	:	
3	Details of CBMWTF	:	
	(i) Number healthcare facilities covered by CBMWTF	:	
	(ii) No of beds covered by CBMWTF	:	1
	(iii) Installed treatment and disposal capacity of CBMWTF:	:	_____ Kg per day
	(iv) Quantity of biomedical waste treated or disposed by CBMWTF	:	_____ Kg/day
4	Quantity of waste generated or disposed in Kg per annum (on monthly average basis)	:	Yellow Category: 2710 gms
		:	Red Category : 1555 gms
		:	Blue Category : 340 gms
		:	White: Nil

		:	General Solid waste:
5	Details of the Storage, treatment, transportation, processing and Disposal Facility		
	(i) Details of the on-site storage facility	:	Size :
		:	Capacity :
		:	Provision of on-site storage : (cold storage or any other provision)
	disposal facilities	:	Type of treatment equipment / No of Units / Capacity Kg/day / Quantity treated or disposed in kg per annum Incinerators------ ----------NA Plasma Pyrolysis ----------NA Autoclaves----------NA Microwave----------NA Hydro clave ----------NA Shredder ----------NA Needle tip cutter or destroyer – ----------NA Sharps ----------NA encapsulation or concrete pit – ----------NA Deep burial pits: ----------NA Chemical disinfection: - ----------NA Any other treatment equipment:----------NA
	(iii) Quantity of recyclable wastes sold to authorized recyclers after treatment in kg per annum	:	Red Category (like plastic, glass etc.) NA
	(iv) No of vehicles used for collection and transportation of biomedical waste	:	One by collector
	(v) Details of incineration ash and ETP sludge generated and disposed during the treatment of wastes in Kg per annum	:	Quantity generated / Where disposed Incineration Ash ETP Sludge
	vi) Name of the Common BioMedical Waste Treatment Facility Operator through which wastes are disposed of	:	GJ Multi clave
	(vii) List of member HCF not handed over bio-medical waste	:	
6	Do you have bio-medical waste management committee? If yes, attach minutes of the meetings held during the reporting period	:	No

7	Details trainings conducted on BMW	:	
	(i) Number of trainings conducted on BMW Management.	:	
	(ii) number of personnel trained	:	
	(iii) number of personnel trained at the time of induction	:	
	(iv) number of personnel not undergone any training so far	:	
	(v) whether standard manual for training is available?	:	Yes SOP.
	(vi) any other information)	:	
8	Details of the accident occurred during the year	:	1 Attached
	(i) Number of Accidents occurred	:	2
	(ii) Number of the persons affected	:	2
	(iii) Remedial Action taken (Please attach details if any)	:	
	(iv) Any Fatality occurred, details.	:	Attached
9	Are you meeting the standards of air Pollution from the incinerator? How many times in last year could not met the standards?	:	NA
	Details of Continuous online emission monitoring systems installed	:	NA
10	Liquid waste generated and treatment methods in place. How many times you have not met the standards in a year?	:	NA
11	Is the disinfection method or sterilization meeting the log 4 standards? How many times you have not met the standards in a year?	:	NA
12	Any other relevant information	:	

Certified that the above report is for the period from Jan 2023 to Dec-2023.

Place : Cherlapally

Annexure-I

1	Fatality	Mr.Kamlash	04.02.2023	The contractor M/s.Maa Kuthari Fabricator was lifting a flange plate of column I beam (Size 19.4 Meter length,980 mm width and 25 mm thickness) of 2M0066 Talcher Fertilizer, Using a hydra crane with SWL 14 Ton capacity using a spreader beam. 3 load lifting points(LLP) were welded at regular intervels on the lifted plate for the purpose of lifting.A chain of 2 Ton was connected to the 1st LLP (Basket hitch) and 5 Ton webbing slings on the 2nd & 3rd LLP respectively, when the load was lifted and placed adjacent to the web plate of I beam, during which the Ovel ring connecting the 2 ton chain with the spreader beam gave away, exerting jerk load to the 2nd LLP due to which the weld joints of 2nd LLP gave away resulting in the lifted flang palte to fell down to floor from a height of 1.0 Meter, during which Mr.Kamalesh was hit by falling plate and crush in between plates.	Body Parts	1.Immediately IP was shifted to OHS for treatment and first aid was given, refered to outside hospital for further medical management 2.Discussed in the mass tool box talks to all employees 3.All yard activities were suspended.	1. All employees involved in lifting & rigging activities shall be trained on lifting & rigging. Rigging & Lifting supervisor to be sourced for the safety department. 2. External Trainer to deliver training to certify people on lifting & Rigging 3. Specific requirement for temporary lifting lugs to be included in lifting & rigging procedure. 4. Inspection of the lifting lug welding shall be conducted by tkII engineer before start of lifting activity. 5. Refreshers training on risk assessment to all supervisors / engineers including contractors. 6. Revisit risk assessment and ensure all activities are identified along with necessary controls to mitigate the risk 7. Revisit of SOP (Standard Operating Procedures) & WI (Work Instructions) based on the risk assessment 8. All activities are classified as non-routine activities and only can start with LMRA untill the process is in place. 9.Criteria to be set for defining routine & non –routine activitiy 10. Daily inspection process shall be established & implemented to monitor activites / areas on fullfillment of safety requirements. 11. All non certified lifting gears were confisticated and discarded from site. 12. Security instructed not to allow any lifting tools & tackles of contractors to enter the site. 13. Signage board "Contractors lifting tools & tackles are not allowed in tkII premises" in local langauge to be displayed at the entrance. 14. Secuirty process to be updated with this mitigation	Closed

2	Lost Time Incident (LTI)	Mr.Dilip ram kumar	08.07.2023	On 08.07.2023 at 13:40Pm Mr. Deleep Kumar Ram(IP) was sitting on the mobile step ladder and carrying out welding activity on the shell which was on the job rotator After completing the welding in one slot and he instructed the assisting person standing below to rotate the rotor in anticlockwise direction for the purpose of carrying out welding in other slot. During which he identified that the lifting lug welded with the shell is about to foul with the mobile step ladder and instructed the assisting person to stop the rotor motion. The assisting person stopped the rotor , however before the rotator came to halt, the temporary lifting lug made contact with the mobile step ladder and pushed the ladder away. due to which the ladder got imbalance and fallen to the floor along with IP, resulting in injury to the right ankle to the IP.	right ankle	1.Immediately IP was shifted to OHS for treatment and first aid was given.2.Discussed in the dept tool box talks.3. Area barricated for further investigation	1.SOP & HIRA to be reviewed for this activity. 2.Awareness training to be given for concerned people. 3.Communication of incident given to all departments	Closed
