TKIL Industries' Pimpri Manufacturing Plant Achieves Five-Star Grading in British Safety Council Occupational Health and Safety Audit

TKIL Industries Pvt. Ltd. (formerly known as thyssenkrupp Industries India Pvt. Ltd.), a leading player in industrial engineering and manufacturing is proud to announce that its Pimpri Manufacturing Works plant has achieved a Five-Star grading in the Occupational Health and Safety Audit conducted by the British Safety Council. The manufacturing plant caters to a wide range of equipment for core industries such as mining, cement, power generation, and sugar. It has a 'State of the Art', machine shop and excellent fabrication facilities aided by testing equipment of international standards that follows the highest standards of safety, productivity and quality.

The company's Pimpri Manufacturing Plant in Pune underwent a comprehensive, quantified and robust evaluation of its occupational health and safety policies, processes and practices. The audit process included documentation review, interviews with senior management, employees and other key stakeholders, together with sampling of operational activities.

The audit measured performance against key health and safety management best practice indicators and a detailed review of all component elements. After a rigorous evaluation, TKIL Industries was awarded a five-star grading following the audit which is reflective of a best practice organisation. Mike Robinson, CEO British Safety Council, said: *"The award of a five-star grading following our occupational best practice Health and Safety Audit is an outstanding achievement and is reflective of a proactive organisation which is committed to continual improvement in its health and safety arrangements and managing risks to workers' health, safety and wellbeing."*

While sharing excitement on the achievement, Mr. Abhay Ghirnikar, Director Manufacturing, TKIL Industries Pvt Ltd said, *"We are honoured to receive this prestigious recognition from the British Council, reflecting our unwavering commitment to the safety and well-being of our employees and stakeholders. This milestone underscores our dedication to continually enhancing our health and safety management systems to maintain best-practice standards. I extend heartfelt congratulations to the workers and the entire Pimpri plant team, whose hard work and dedication have made this achievement possible. With this esteemed certification, TKIL Industries reaffirms its commitment to ongoing improvement in health and safety excellence."*

Commenting on the achievement, Mr. Vivek Bhatia, MD and CEO, TKIL Industries, said, *"This really a fantastic achievement and I congratulate all our leadership team members*

and staff who have worked relentlessly in improving our OSHE orientation. As leaders, we are fully committed in ensuring that safety is a number one priority for us and that everyone working for us does so in a safe and secure environment.”

TKIL Industries has recently forayed into the green hydrogen sector, diversifying its current business portfolio. The company's manufacturing facilities set benchmarks for quality, supported by a highly skilled workforce and a team of qualified, experienced engineers delivering exceptional craftsmanship in producing customized equipment. Additionally, TKIL's business processes are seamlessly integrated with SAP ERP, enabling enhanced flexibility, efficiency, and productivity across operations.

-Ends-

Notes to editors

About the Five Star Occupational Health and Safety Audit

The Five Star Audit is a comprehensive, contemporary and quantified process which benchmarks health and safety management performance against the latest best practice techniques.

The audit process is carried out through documentation review, management and other stakeholder interviews, as well as operational sampling.

Those organisations who achieve a five star grading following the audit become eligible to enter British Safety Council Sword of Honour Awards which recognise excellence in the management of health and safety.

The award scheme is an independently adjudicated process which requires five star achievers to build upon the audit findings and provide a written submission on their continual improvement planning.

About British Safety Council

British Safety Council believes that *no-one should be injured or made ill through their work*.

Since its foundation in 1957, British Safety Council has campaigned tirelessly to protect workers from accidents, hazards and unsafe conditions, and played a decisive role in the political process that has led to the adoption of landmark safety legislation in the UK. Its members in more than 60 countries are committed to protecting and improving the wellbeing of workers, believing that a healthy and safe work environment is also good for business.

As part of its charitable work, British Safety Council leads health and safety networking forums for all sectors, facilitates and promotes best practice around the world. It also offers a range of services and products, including training, publications, audits and awards. British Safety Council works closely with organisations, charities and individuals who share its vision of ensuring that every worker goes home at the end of the day as healthy as they were when they went to work.

We would be grateful if you could use British Safety Council in full rather than abbreviating to BSC when quoting our organisation.
